### Modern art and Culinary art

Do you like graphic arts? How about culinary arts, drinks and great company? Here comes an invitation from one of Stuttgart's best hotels:

Come and join this classy event with an exhibition opening of Freya von Bülow, a local artist from Baden Württemberg. "Flora" is going to be the motto for this evening, her motives from the nature would certainly inspire us.

To enjoy art more, we get to the cultural experience also some Schweppes and gin-tonic, culinary wonders (appetizers) from Arcotel's classy kitchen, and of course Live music.

Most importantly let's meet and have conversations about art! You can take a look at the photos we've made there last time:

American Theater**Leaves of Grass by Walt Whitman**

The poetry of Walt Whitman is the cornerstone of modern American verse and his influence is still evident today. First published in 1855, Leaves of Grass was a revolutionary manifesto declaring America's independence from European cultural domination. Walt Whitman's rhapsodic free verse broke radically with poetic tradition. It was poetry about America, its democracy, its people, and its hope.
